

Your Radiology Partner

# Supplemental Professional Services

In partnership with Professional Radiology Solutions of South Carolina, LLC.

***Does your hospital offer continuous radiology coverage?***

***Do you have access to fellowship-trained subspecialty radiologists?***

***Are your patients going elsewhere for their "high-end" examinations?***

Many rural and community hospitals cannot support a large staff of radiologists and therefore struggle with issues such as:

- Night coverage
- Weekend coverage
- Vacation coverage
- Complex "high-end" interpretations
- Timely professional reading and consultation

## **Local Service, Quality Reading**

Greenville Radiology (GRPA) is the largest full-service radiology practice in South Carolina. GRPA offers their subspecialty, fellowship trained radiologists to assist your hospital's radiologists with all of your needs, ensuring that you are covered 24 hours a day, seven days a week.

Whether it is night time coverage, high-end over-reading or consultation, GRPA is prepared to ensure that your patients receive the same high quality care as is available in any of the leading medical centers, and that your local patients are treated and served locally.

## **RIS/PACS Technology**

When you implement GRPA's RIS/PACS solution, our radiologists can access your images remotely and deliver definitive interpretations whenever needed. You will be able to offer around-the-clock imaging services that until now have been reserved for only the largest hospitals.

## **Consulting and Marketing Services**

With its extensive radiology experience, our team is ready to use its expertise to help your facility make decisions that increase productivity and minimize costs. In addition to RIS/PACS, our core competencies include equipment sales and service, vendor negotiations, and departmental workflow analysis. We also have a service that assists referring physicians in ordering the appropriate study. By marketing our enhanced services to your referring physicians, your hospital should see an increase in volume and profitability.

Let us know how we can assist you.
